Habitat for Humanity®
of Greater Plymouth

2026 IMPACT REPORT

# Welcome Home, Kaitlin!

In January, our construction crew began the full rehabilitation of a house in Carver, originally built in 1890, and abandoned for the last 17 years. Kaitlin, a US Navy Veteran and mother of four, was selected as the new homeowner through our lottery. As a case manager at the Plymouth Area Veterans Center, she spends her days helping fellow Veterans find stable housing, even as her own family had never had a place that felt permanent. Kaitlin grew up watching her father build their family home. She and her two oldest children did the same, working alongside hundreds of volunteers to rebuild the house that will soon become their home. Now complete, it's ready for Kaitlin to purchase with an affordable mortgage, giving her family the stability they've worked hard for.

## What We've Built Together

### Community

More than **600** volunteers gave nearly **8,000 hours** toward our build project, at the ReStore, and on committees this year!

### Stability

**67 children** will now grow up in stable homes built with HFHGP. A home that stays put means no more changing schools and more room to grow.

### Affordability

Habitat families save about **$2,000 per month** over local rent, so there's room in the budget for health, education, enrichment, and savings.

**Let's Build Stronger Communities Together.**

Habitat for Humanity® of Greater Plymouth

**Building Stability. Strengthening Communities.**

# ReStore on the Rise

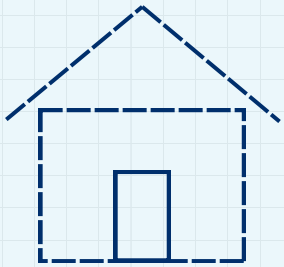

More neighbors are finding our ReStore in Carver, and more are giving back to it. Since our expansion last April, donations and sales have grown over prior years. A gently used sofa or set of dishes gets a second life with someone who needs it, and every transaction helps sustain Habitat's work across Greater Plymouth. Have something to give? Visit hfhplymouth.org/ReStore

- **Free pickup** for larger donations
- **Cabinet removal** for kitchen remodels
- **Round up** at the register to support Habitat's mission
- **Volunteers** always welcome

**120+**
**tons** of useful goods diverted from the landfill

**515+**
**FREE** donation pickups completed this year

**6,332+**
**items** donated from our community

## Building What's Next

As Kaitlin looks ahead to a future in her new home, the next family is out there and waiting. In 2027, we'll begin our next home build in Kingston, substantially expand our critical home repair program with SAFER at Home, welcome more volunteers to get involved, and invite more of the community to explore the benefits of the ReStore. Every home starts with people who believe it's possible.

## Habitat's Community Impact

### Meaningful Connection

Volunteers gain purpose, connection, and better physical and mental health.

### Economic Growth

Lifts property values, expands tax base, and supports local businesses.

### Stronger Neighborhoods

Revives vacant lots and neglected homes, and roots families for the long-term.
